IV. SPECIAL REPORTS FROM MINISTRY OF HEALTH

1-8 Programs for students in therapeutic, pediatric, sanitary-hygiene and stomatologic faculties of medical institutes, in:

- (1) Biological chemistry
- (2) Microbiology
- (3) Topographic anatomy and operative surgery
- (4) Histology and embryology
- (5) Inorganic and analytical chemistry
- (6) Physics
- (7) Pathologic physiology
- (8) Pathologic anatomy

9-13 Programs for students in pharmaceutical institutes and pharmaceutical faculties of medical institutes, in:

- (9) Pharmacology
- (10) Legal chemistry
- (11) Medical economics
- (12) Inorganic chemistry
- (13) Technology of prescriptions and Galenical preparations

14-27 Programs on courses for medical schools (i.e., feldshers, mid-wives, etc.), in:

- (14) Physics
- (15) Anatomy, histology and embryology
- (16) Biology
- (17) Physiology of man
- (18) Microbiology
- (19) Pharmacology and prescriptions
- (20) Infectious diseases
- (21) Epidemiology and disinfection
- (22) Epidemiology and medical parasitology
- (23) Obstetrics and gynecology
- (24) Gynecology
- (25) Obstetrics
- (26) Diseases of ear, nose and throat
- (27) Eye diseases

(28) Curriculum of higher medical educational institutions.

(29) Curriculum for feldshers, 1954.

(30) Curriculum for mid-wives, 1954.

(31) Curriculum for sanitary-feldshers, 1954.
